

M3

Launching CS Grenade LRB

Equipped with a launcher and launching cartridges, this grenade is intended for riot control and outdoor use at long distances. It can be fired to the distance of over 100 meters (130 - 180 m), either with a 7.62x39 mm assault rifle (AK47 KALASHNIKOV, M70A, or other) or with 38 mm (1.5 inch) anti - riot gun. Upon impact with the target, the grenade releases CS in a form of dense white smoke. It can also be hand thrown.

TECHNICAL DATA:

• Delay	2-3 s
• Emission time	30-40 s
• Pyrotechnic weight	240 g
• CS weight	72 g
• Total weight	450 g
• Diameter	60 mm
• Height	160 mm
• Maximum range with launching cartridge 7.62 x 39 mmup	to 180 m
• Maximum range with launching cartridge 38 mm (1.5 inch)	up to 120 m
• Operating temperature range-	20 to +55 C
• Shelf life	5 years
